Phiaton's BOLT BT 700 Named CES 2019 Innovation Awards Honoree

Phiaton's BOLT BT 700 true wireless earbuds with charging speaker case honored with 2019 CES Innovation Award

FOUNTAIN VALLEY, Calif. (November 8, 2018) – [Phiaton Corporation](#), a premium manufacturer of high-performance personal audio products, is honored to announce that its recently released [BOLT BT 700](#) true wireless earbuds featuring a charging case that doubles as a portable speaker was named a 2019 CES Innovation Awards Honoree by the Consumer Technology Association™. Phiaton's BOLT BT 700 will be on display in the [Innovation Awards Showcase](#) at CES 2019.

The CES Innovation Awards are sponsored by the Consumer Technology Association, owner and producer of CES, the world's largest and most influential technology event. The CES Innovation Awards recognizes honorees across 28 product categories. A panel of judges, including designers, engineers and members of the tech media, reviews submissions based on design, functionality, consumer appeal, engineering and how the products compare with competition.

BOLT's versatile charging speaker case provides up to five hours of music playing time per charge, fully charges the earphones up to three times per charge, for a total of 20 hours of play time. Its quick charge feature allows for one hour of music playing time on the earbuds from just a 15-minute charge.

Featuring Phiaton's Balanced Armature Technology, BOLT's custom-made drivers deliver fine-tuned, high resolution audio and faster response with impressively detailed sound, making these the first of their kind in the true wireless market. The drivers make each vibrant note come alive so users can experience mid-high frequency tones and hear all the textured nuances and detail of the original sound.

BOLT BT 700 offers touch interface controls and buttons on the earphones for convenient music and call controls with the swipe of a finger, seamless access to Siri® and Google Assistant™ for hands-free voice commands and IPX4 sweat and water resistance for use while working out or on the go.

BOLT also boasts dual mics on each earphone for crystal clear call quality, audio transparency to hear one's surroundings without having to remove the earphones, Bluetooth 5.0 for a reliable wireless connection and RightFit+ ear wings that provide an ergonomic, comfortable fit all day long while applying the right amount of pressure to keep earphones in place.

About CES

CES® is the world's gathering place for all who thrive on the business of consumer technologies. It has served as the proving ground for innovators and breakthrough technologies for 50 years-the global stage where next-generation innovations are introduced to the

marketplace. As the largest hands-on event of its kind, CES features all aspects of the industry. Owned and produced by the Consumer Technology Association (CTA)[™], it attracts the world's business leaders and pioneering thinkers. Check out [CES video highlights](#). Follow CES online at [CES.tech](#) and on [social](#).

About Consumer Technology Association

Consumer Technology Association (CTA)[™] is the trade association representing the \$377 billion U.S. consumer technology industry, which supports more than 15 million U.S. jobs. More than 2,200 companies – 80 percent are small businesses and startups; others are among the world's best-known brands – enjoy the benefits of CTA membership including policy advocacy, market research, technical education, industry promotion, standards development and the fostering of business and strategic relationships. CTA also owns and produces CES[®] – the world's gathering place for all who thrive on the business of consumer technologies. Profits from CES are reinvested into CTA's industry services.
